*Navigating your way through the parent portal*

When you log in the page will open up to your home page which will look like the page below. Click on your child’s student ID number.
Once you click on your child’s ID number it will open up to their profile page.

From here you can click on the various tabs that are available, such as Attendance, Schedule, Grade Book, Progress Report & Report Card.
You will only see something under attendance if there was an attendance issue, such as late to class or absent from class or school. The schedule tab would show you their daily schedule. The grade book tab shows you the current grades in their classes, as long as the teacher uses the online grade book. When you get to the grade book tab, make sure to choose the correct marking period, you then have to click on each class to open up the drop down of assignments and this where you will see what their assignments are and any quizzes and tests or projects.
The progress and report card tabs will bring up the most current report sent home.
So now you have navigated your way through the parent portal.
